PROFILE

Detail-oriented Product Designer with 3+ years of experience designing intuitive digital products across fintech, SaaS, e-commerce, and consumer apps. Known for translating complex user needs into clean, high-converting interfaces - with a track record of driving measurable improvements in user retention, sign-ups, and conversion rates. Strong foundation in end-to-end product design: from user research and wireframing to high-fidelity prototyping and developer handoff. Increasingly ships functional prototypes and production-ready builds using AI-augmented development tools (Claude Code, Figma-to-code workflows), taking products from concept through to deployment.

EXPERIENCE

Freelance · Lagos (Remote)

Sep 2025 - Present

Product Designer

- Independently design and build full products end-to-end, taking client and personal concepts from Figma design through to deployed, working apps using an AI-augmented workflow (Figma, Claude Code, ChatGPT).
- Own the full lifecycle across design and build - UX/UI design, prototyping, and hands-on development - delivering functional web apps without a separate engineering handoff.
- Partnered with founders and small businesses across fintech, creator-economy, and e-commerce niches to ship production-ready products on tight timelines.

Monospace Digital Solutions · Lagos

May 2024 - Jun 2025

UI/UX Designer

- Design end-to-end digital products across SaaS, fintech, and e-commerce verticals - handling full product design cycles from discovery through to developer handoff via Figma Dev Mode.
- Produced responsive, cross-platform interfaces (mobile, tablet, desktop) for multiple client brands, consistently aligning deliverables with brand guidelines and business KPIs.
- Contributed to measurable improvements in user retention, sign-up rates, and sales lead conversion through research-informed UX decisions and iterative design testing.
- Facilitated design reviews with cross-functional teams and stakeholders, using Notion and Jira to manage design sprints and maintain structured feedback loops.

Tectarii · Lagos

Jun 2023 – Mar 2024

UI/UX Designer

- Designed organised, interactive interfaces for web and mobile app products - gathering requirements directly from users and stakeholders before scoping design solutions.
- Oversaw product development across design, usability, and branding dimensions; ensured seamless responsive behaviour across device breakpoints.
- Created user journey maps and interaction flows that reduced friction in key user paths, improving overall satisfaction scores.

Tectarii · Lagos

Feb 2023 – Aug 2024

Video Editor

- Produced ~232 pieces of video content over 18 months (3 videos/week), transforming raw footage and creative briefs into high-quality, brand-aligned outputs.
- Creatively merged content from multiple sources - adapting tone, pacing, and visual style to meet each brand's editorial and audience requirements.
- Contributed to multi-platform content strategies that consistently grew brand visibility and audience engagement.

Kree8Studios · Lagos

Sep 2022 – Jan 2023

Creative Director

- Led creative direction across multiple brand campaigns - conceiving concepts, building visual guidelines, and overseeing execution from ideation to delivery.

- Developed and implemented premium content strategies for client brands, resulting in measurable growth in online presence and audience engagement.
- Collaborated with external brand partners on integrated team projects, maintaining cohesive thematic style across all campaign touchpoints.

EarlyBell Academy · Lagos

Jul 2022 – Sep 2022

Creative Intern

- Assisted in executing creative shoots and content campaigns, collaborating with the broader team to support brand projects.
- Worked with external brand partners on team-based projects, gaining hands-on experience in professional creative production.
